

TA RECRUITMENT SYSTEM

- ☐ TA Applicant
- ☐ Module Organizer (MO)
- ☐ System Admin

Account ID

Password

LOGIN

[Forgot Password?](#) [Contact Admin](#)

Page 1 - Login Page

- Function:** The unified login entry for the system, used for authentication by all users (TA Applicants, Module Organizers, and Administrators).

- Key Elements:**

- Title:** "TA RECRUITMENT SYSTEM", clearly states the system name.

- User Role Hint:** Lists the three main user roles of the system (TA Applicant, Module Organizer, System Admin), prompting users to log in with the correct identity.

- Form:** Contains two input fields for "Account ID" and "Password" for users to enter their credentials.

- Button:** "LOGIN" button to submit login information.

- Helper Link:** "Forgot Password? Contact Admin", providing a way to retrieve a forgotten password.

- Design Intent:** A clean and straightforward login interface that guides users to quickly complete authentication and access the system.

TA Registration

[Create Account](#)

Page 2 - TA Registration Page

- Function:** Provides a registration function for new TA applicants to create an account.

- Key Elements:**

- Title:** "TA Registration", clearly states the page function.

- Form:** Contains input fields for "Full Name", "ID" (Student ID/QMID), "Major", etc., to collect basic user information.

- Button:** "Create Account" button to submit registration information.

- Back Link:** "Back to Login", allowing users to return to the login page.

- Design Intent:** Collects necessary information from new users to complete the account creation process, preparing for future login and application.

Edit TA Profile

Supported formats: txt/csv/json/xml

Save changes

Page 3 - TA Profile Edit Page

- Function:** Allows registered TA applicants to view and edit their personal profiles and upload their CVs.

- Key Elements:**

- Title:** "Edit TA Profile", clearly states the page function.

- Form:** Contains editable information fields such as "Full Name", "ID", and "Skills".

- CV Upload:** "Upload CV" area, allowing users to upload their CV files, with supported formats indicated (txt/csv/json/xml).

- Button:** "Save changes" button to save modified information.

- Back Link:** "Back to Login".

- Design Intent:** Enables users to maintain their personal profiles, supplement skill information, and upload CVs for screening by Module Organizers.

Data Science
Deadline: 2026-04-15

Apply Now

Page 4 - TA Dashboard Page

- Function:** The main interface for TA applicants after login, displaying available TA positions.

- Key Elements:**

- Title:** "TA Dashboard", clearly indicating this is the TA's personal workspace.

- Position Cards:** Displays "Available Positions" in card format, with each card containing the position name (e.g., Software Engineering) and deadline.

- Button:** An "Apply Now" button below each position card for quick application by the user.

- Logout Button:** "LOGOUT" for secure exit.

- Design Intent:** Serves as the operation center for TA applicants, intuitively displaying available positions and providing convenient application entry points.

Page 5 – Position List Page

- Function:** Displays a list of all available TA positions and provides a search function.

- Key Elements:**

- Title:** "Available Positions", clearly stating the page content.

- Search Box:** "Search by Course Name", allowing users to filter positions by course name.

- Position Table:** Lists position information in table format, including columns for "Course Name", "Requirements", "Deadline", etc.

- Action Button:** "View Details" button linking to the position details page.

- Logout Button:** "Logout".

- Design Intent:** Provides a structured interface for browsing and filtering positions, allowing users to fully understand all position information and find those of interest.

Application Submitted Successfully!

[Back to Position List](#)

Page 7 - Application Submitted Page

- Function:** Displays a success prompt after the user submits a position application.

- Key Elements:**

- Title:** "Application Submitted", clearly indicating the operation result.

- Success Message:** "Application Submitted Successfully!" displayed in large font to give clear feedback to the user.

- Back Button:** "Back to Position List", guiding the user to return to the position list to continue browsing or applying for other positions.

- Back Link:** "Back to List".

- Design Intent:** Provides clear operation feedback, informs the user that the application has been successfully submitted, and guides them to the next step.
